## Summary

I have 9-year experience in working in industry as well as in doing research in academia. I am good in Mathematics and in Programming.

## Education

Ph.D. Norwegian University of Science and Technology, Norway	2021 (expected)
M.A. Computer Science, Hunan University, China	2016
B.S. Computer Science, Hanoi University of Technology, Vietnam	2004

## Working Experience

Research Fellow, PhD, NTNU, Norway	2017 – Present
<ul style="list-style-type: none"><li>– Develop novel techniques and efficient algorithms for detecting events in various type of data. Results of this work are several proposed algorithms and papers in top conferences and journals.</li><li>– Teaching Assistant (TDT4310-Intelligent Text Analytics and Language Understanding): Give presentation, prepare exercises and solutions, grade solutions (Python).</li><li>– Programming Languages: Java, C++, MatLab, Python.</li></ul>	
CSC Master Student, Hunan University, China	2014 – 2016
<ul style="list-style-type: none"><li>– Taking Courses (Score 91.94/100): e.g. Algorithm Analysis and Design, Discrete Mathematics, Intelligent Optimization Algorithm, Advanced Artificial Intelligence, Program Language, Advanced Computer Organization, Advanced Data structure and Algorithm.</li><li>– Develop kHMC algorithm for mining top-k high utility itemsets (published in Knowledge-Based Systems).</li></ul>	
Senior Software Engineer, Military Bank, Vietnam	2013 – 2014
<ul style="list-style-type: none"><li>– Develop enterprise applications (e.g. HR) and business processing management (BPM) (e.g. appraisal process, loan process) using software-AG product, service monitoring tool. Advising and fixing some vulnerabilities and flaws of applications and systems.</li><li>– Platform: Web-Based Application &amp; Services.</li><li>– Tools and Techniques: Software-AG, SQL-Server, PHP, C-Sharp.</li></ul>	
Solution Architect, Team Leader, VTCMobile, Vietnam	2011 – 2013

- Build Back-End framework and services for applications and games on mobile platform. Analyze and design databases and develop backends, restful services using C-Sharp, SQL-Server, NoSQL-MongoDB, OAuth.

Researcher, CDIT, Vietnam

2006 – 2011

- Propose solutions and develop applications for Vietnam Post.
- Platform: Window & Web Based Applications.
- VB.Net, C-Sharp, SQL-Server, Oracle.

Developer, Vinacomm, Vietnam

2004 – 2006

- Build content management system for news and financial (stock) service system. Build indicator, candle, pattern recognition and rebuild system with new technology, e.g. C-Sharp, NoSQL-Redis.

Outsource, Vingroup, Vietnam

2008 – 2011

- Build HR system, Booking online, Member Management System, Real Estate Management.
- Platform: Window & Web Based Applications, C-Sharp, DevExpress, SQL-Server.

## Honors and Awards

- |  |             |
|--|-------------|
| 1. National award in Mathematics for high school student                           | 1999        |
| 2. Full CSC Scholarship for Master degree  | 2014 – 2016 |
| 3. Selected for Best Papers of the Industrial Conference on Data Mining Conference | 2016        |
| 4. PhD Fellowship  | 2017–2021   |

## Research Interest

Data Mining, Algorithm Analysis, Optimization.

Machine Learning and Artificial Intelligent

Event Detection in Tensor and Graph Data.

## Programming Languages

Java/JavaScript

- Implemented the algorithms in following papers: MUST, CCPD, IncCHUI, CLS-Miner, ULB-Miner, kHMC, KOSHU algorithms

C/C++/C-Sharp

- Used when working in industry (C-Sharp) and implemented the algorithm in top-rank-k paper (C++).

Matlab/Python/CSS/NoSQL

- Matlab is used to implement Sketch paper. Python is used in preprocessing data in MUST and in teaching of TDT4310.

## Services

---

### Teaching Assistant

Intelligent Text Analytics and Language Understanding (TDT4310), 2018S, 2019S.

### *Reviewer*

Knowledge-Based Systems

Artificial Intelligence Review

Information Sciences

International Conference on Data Mining (DMIN)

### Coursework

DT8116 – Web Mining	2017S
---------------------	-------

DT8801 – Advance Database Systems	2017S
-----------------------------------	-------

DT8122 – Probabilistic Artificial Intelligence	2019S
--	-------

### Languages

Vietnamese, English, Chinese (basic), Norwegian (basic)
